2. History of Company Towns in Japan

(1) Terminology

- In Japanese, a company town is generally called a "Kigyo-Jyakamachi," which means a castle town of a company, analogous to the castle towns of the early modern era.
- In the castle towns of Edo period Japan, feudal lords had many samurai in their service. Merchants and craftsmen lived and worked in the castle town.

through electronically controlled machines and smart machines connected to the internet, such as the Internet of Things, 3D printing, artificial intelligence, industrial robots, cobots, and others, in the form of applications that have intervened in all areas of life and work
